Website Penetration Test

€400

6-MONTH TERM

Recurring

One payment of €400 – covers the full 6-month term.

Continuous web pentesting to keep you and your customers safe across a 6-month term, billed as a single up-front payment.

// DELIVERABLES

- A recurring SMB-focused website test each cycle.
- Per-cycle findings report with severity ratings and fixes.
- Regression checks on previously reported issues.
- An ongoing findings tracker across the term.

// EXPECTED OUTCOMES

- Continuous, SMB-level assurance as the site changes.
- Confirmation that fixed issues stay fixed.
- Demonstrable, ongoing diligence for your customers.

// METHOD OF ENGAGEMENT

Retained, cyclical SMB website testing run remotely — the recurring counterpart to the once-off website pentest. Add-on remediation service available if you'd like us to take care of the hardening and maintenance.

// TIMELINE

6-month term. Onboarding in week 1, then a recurring test-and-report cadence each cycle.

- Project management is included in all prices.
