Recurring Web Application Penetration Test

€1,250/mo

6-MONTH MINIMUM

One payment of €7,500 for the 6-month term.

Ongoing web pentesting on a 6-month commitment.

// DELIVERABLES

- See Web Application Pentest sheet for testing detail.
- A recurring testing window each cycle, aligned to your release cadence where possible.
- Per-cycle findings report with severity ratings and remediation guidance.
- Regression testing of previously reported issues to confirm they stay fixed.
- A maintained findings tracker and trend reporting across the engagement term.

// EXPECTED OUTCOMES

- Continuous assurance as the application changes, rather than a single point-in-time snapshot.
- Confidence that resolved issues do not silently reappear.
- A demonstrable, improving security posture over the contract term.

// METHOD OF ENGAGEMENT

Retained, cyclical engagement run remotely. Each cycle covers a testing window, reporting, and retests of prior findings, with coverage adjusted as the application evolves.

// TIMELINE

6-month minimum. Kickoff in week 1, then a recurring testing-and-reporting cadence each cycle for the term.

- Project management is included in all prices.
